- Main differences between European procedures and China, Japan, South Korea, US

Your speaker

Pete Pollard

European & Dutch Patent Attorney and EU Design & Trademark Attorney,
Fireball Patents, Eindhoven (The Netherlands)

In-depth course: Intellectual Property for IP Administrators

Aims and objectives

In practice, most cases are processed using well-tested procedures without problems. However, if something unexpected occurs, knowing more about the sanctions and remedies available will increase your confidence in dealing with it.

This course provides guidance on uncommon parts of the procedures, explaining the major steps to be taken and the best practices to avoid further complications. In addition, the major differences and difficulties in states outside Europe are covered to provide a more global view.

Your benefits:

- The global IP context will become clearer
- You will be able to better assess what to do in uncommon situations
- You will be able to work independently
- Communication with your team and your direct supervisor will improve

Who should attend?

- Administrators
- Legal assistants
- Formalities managers
- Paralegals

Documentation

Attendees will receive course material comprising comprehensive documentation provided by the speakers, which will be a valuable reference source for the future.

Your speaker

Pete Pollard
European & Dutch Patent Attorney and EU Design & Trademark Attorney,
Fireball Patents, Eindhoven
(The Netherlands)

Originally from the UK, Pete has lived in The Netherlands for 30 years. After 5 years inhouse at ASML, he moved to the private practice DeltaPatents in 2007, dividing his time between patent work, management and training in European and PCT law. As partner, he was responsible for the procedures and functioning of their formalities group. He was one of the original tutors when DeltaPatents started training patent administrators, and passed the first exam in 2011 to become a Certified Formalities Officer (NL). He was also one of the first tutors to teach administrators at the EPO as part of their EPAC program. In 2017, he left DeltaPatents to start his own firm, Fireball Patents, providing cost-effective patent services to SME's and startups.

Requirements for participation

Prerequisite knowledge of:

- The various intellectual property rights and the differences between them
- How and where to register these IP rights
