

# Receptacle ensemble

The Receptacle Ensemble is newly developed ensemble, this concept is devised to play and research through experimenting and playing. Everybody is welcome in the Receptacle Ensemble, regardless of instrument and playing level. We all add to the outcome, teachers develop repertoire, you can take your own pieces/songs, we help you to compose, improvise and perform. Together we create one concert, one new piece.

We all take musical aspect to put in the receptacle tank, we shake and combine and find a new outcome.

Creating musical structure, tonalities, harmony, chords, melody, tempo, pulse and rhythm. With movement and games we embody the music. New ideas are welcome, you can add your input. We learn to tell our stories through playing our instruments, to use our imagination while playing. We are an ensemble, we play together to inspire each other.

I am going to play classical repertoire with you, other teachers will come in to add jazz, Eastern European folk music, klezmer and Arab music. We throw in some samba and salsa and we might even go to African drumming.

We rehearse on Mondays in De Gheijnstraat 51, from 16.00 till 17.00!

Weimarstraat 63
