

MESSAGE FOR GUESTS IN LATYKA B&B

The B&B was cleaned and disinfected according to the cleaning guidelines before your arrival to prevent the spread of the COVID-19 virus. We would like to ask your cooperation to keep the B&B neat and virus resistant.

May we therefore point out the following points for attention:

1) What is expected of the guest:

- Wash your hands regularly.
- Sneezing or coughing? Use a paper handkerchief and immediately throw it away in the appropriate trash can.
- When you come outside (your room), respect the 1.5 meter distance. If this is impossible, use mouth masks (available in the basement bar).
- Avoid physical contact with persons other than your family members.
- Avoid cash payments and choose debit / bancontact.

2) In the B&B:

- Every time you enter the B&B or cellar bar, disinfect your hands with products on the table at the entrance.
- Your key has been disinfected, keep it with you and follow the operator's guidelines. Hand it in after payment on departure.
- Touch as little as possible on the way to your room.
- Ventilate your room regularly.
- Place your pedal bin in front of your room door every morning, if you do not want us to enter the room.
- The basement bar only serves tables, so no standing tables or walking lunches or dinners.
- Consumption is compulsory while sitting in the cellar bar. Consuming and / or ordering at the bar or standing up is therefore not allowed.

3) LATYKA B&B:

Since we also have to comply with the legal regulations, our service and facilities will look different, but you can count on our hospitality more than ever. We clean / disinfect, every day, the light switches / doorknobs / banisters / etc. of the common areas. You can always contact us via Whatsapp or by telephone for any questions. Of course we are also available to you (1.5m away). If we follow these guidelines together, your stay will be in safe conditions.

We are convinced that we can count on your cooperation.

Enjoy your holiday!

LATYKA B&B
