
P 16 LED transparent panel specification

Model: WK-TP-LED P16

P16 LED transparent panel

Soft transparent panel, build-in IC and WS2813-2020 led chip

P16 LED transparent panel

1. Discription:

Adopt soft and thin transparent PCB, build-in IC, use WS 2813-2020 chip
4 pieces in one M2, it has 3600 pixels per M2

2. Application:

Transparent Signage in Mall, Shop, Trade show, Window etc..

3. Features:

- light and handy, soft and thin, easy to move.
- easy to bend.
- good heat dissipation, long lifetime.
- high brightness chip, clear picture.
- can be laminated in glass or stuck on glass.

4.Specification:

model	WK-TP-LED P16
pixels	900 pixels
voltage	5V
power	90W/P
angle	180°
color	RGB
size	1000mm*250mm
ip grade	IP20 non-waterproof

5.Note:

- non waterproof
